■ Welcome !

Thank you for choosing our video doorbell extender!

- ❑ **Strong compatibility** — compatible with all models of Blink & Ring & Google Nest video doorbells.
- ❑ **Easy to install** — no need for extra complicated wiring, just plug the extender into the outlet, and the rest is set up on the phone
- ❑ **Wide coverage** — Works where your Wi-Fi signal reaches
- ❑ **Multiple Connections** — The video doorbell can support up to 50 extender pairs, allowing you to optimize for a larger living space

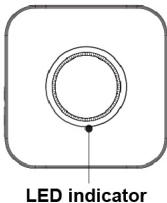

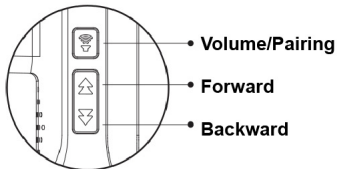

How the Extender System Works !

■ Before you begin

- ✓ The place where you want to install the extender should be covered by your home Wi-Fi signal.
- ✓ Your mobile device must be connected to the same Wi-Fi which the extender will connect to, (only **2.4GHz** networks are supported).
- ✓ Ensure that Bluetooth is enabled on your mobile device.

■ Hardware Overview

■ Manual operation

Buttons	Operation
Volume/ Pairing 	Short press to adjust the volume; 4-level volume adjustment Hold and press until the red light is flashing slowly to indicate pairing mode. then add to the Smart Life APP
Backward 	Short press to select the ringtone backward
Forward 	Short press to select the ringtone forward

■ Product Parameter

Power	AC80-230V
Wi-Fi	2.4 GHZ
Operating Current	<500 mA
Volume	90-110dB, 4-level volume adjustment
Number of Ringtone	58
Working Temperature Range	-10°C to 55 °C
Working Humidity Range	less than 85%

■ CUSTOMER SERVICE

- ✓ **2-Year Warranty:** For 24 months after the date of purchase, we take care of all quality-related issues with a new replacement or refund.
- ✓ **Customer Service Email :** miniduo888@outlook.com

■ Video Tutorial

- ✓ On the **Amazon product detail page**;
- ✓ On **YouTube**, search for “@duomini-k4s” and watch the video on the **homepage**.

■ Q&A

Q: Will using this doorbell extender cause any delay?

A: If your video doorbell is hardwired, responses will be real-time. For battery-powered models, you may experience a delay of a few seconds. This is intentional by design to conserve battery life and cannot be adjusted.

Q: How do I set the product to silent mode (0 dB)?

A: Configure the alert style to "Light" in the Amazon Alexa app. For step-by-step instructions, please refer to **Step 5** in the User Manual.

Q: How do I add multiple extra doorbell extenders?

A: If you'd like to add one or more extra doorbell extenders, you can do it in just two simple steps:

1) Add the extra extender(s) to SmartLife, following **Step 2:**

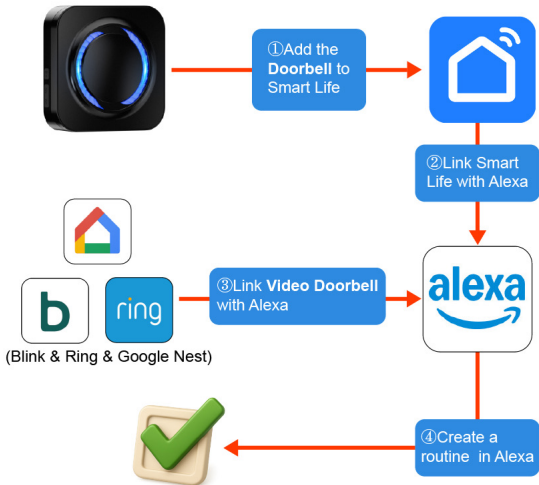

- **Blink:** pages 9–11
- **Ring:** pages 29–31
- **Google Nest:** pages 48–50

2) Set up your extender(s) in Alexa, following **Step 5:**

- **Blink:** pages 19–26
- **Ring:** pages 38–45
- **Google Nest:** pages 57–64

Friendly reminder: You can create different modes on each extender to help tell rooms and scenes apart — feel free to DIY them to suit your needs.

■ Installation Guide overview

Installation Guide for **Blink** Series

■ Step 1 : Download the APP

1.1 Download the "**Smart Life**" & "**Alexa**" app from **Apple App Store** or **Google Play** to your phone (If already downloaded, skip.)

1.2 Create "**Smart Life**" & "**Alexa**" account (If registered, skip.)

1.3 Download "**Blink**" app (If already downloaded, skip.)
